SHIPPING & ADDITIONAL NOTES:

Pole lengths exceeding 106" will incur significant additional freight charges. The collection's pole splice can be used to achieve longer spans - the required center bracket will help conceal the resulting seam.

ABBREVIATION KEY:

- D** = diameter
- H** = height
- L** = length
- P** = projection
- W** = width
- ID** = inside diameter
- OD** = outside diameter

Highland Timber

Vesta's Highland Timber collection features a gallery of masterfully carved finials and accessories. This line offers four pole diameters and ranges from understated and simple to intrinsically elegant designs. All components are made available unfinished and stain-grade to become the blank canvas for your own unique interpretations.

COMPONENT SPOTLIGHT

Featured below is this collection's pole splice. To install, find the center of the two poles you plan to join, pre-drill and screw them together until tight. The center bracket required for a longer span will help conceal the resulting seam produced by joining two poles.
