MATERIALS:

- aluminum, brass

DIAMETER & BRACKETS:

- ▲ ¾"D: bracket required every 3-5 feet
- ▼ 1½"D: bracket required every 5-7 feet

STYLE:

Modern & Contemporary

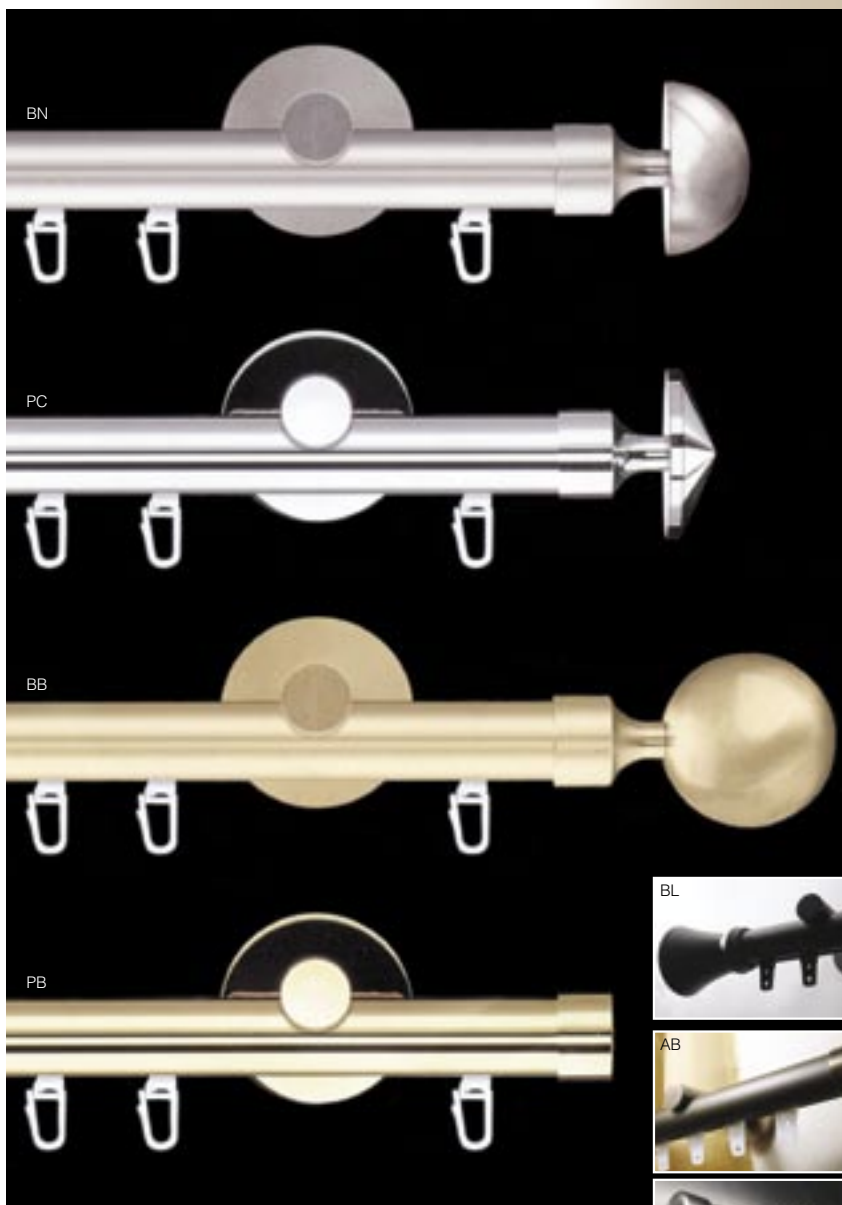

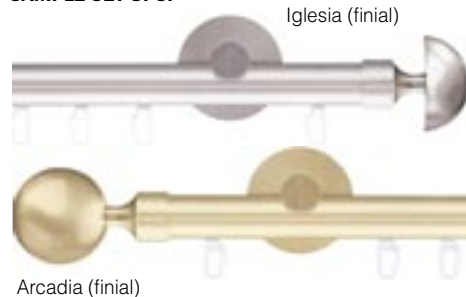

SHIPPING & ADDITIONAL NOTES:

Track lengths exceeding 106" will incur significant additional freight charges. The collection's track connector can be used to achieve longer spans. When joining tracks, the cut produced will be noticeable and roller glides are the preferred choice for smooth operation.

ABBREVIATION KEY:

- D** = diameter
- H** = height
- L** = length
- P** = projection
- W** = width
- ID** = inside diameter
- OD** = outside diameter

Techno Track

Vesta's Techno Track collection is hand-traversing and designed with extensive one-way draws in mind. The collection's Techno brackets support the aluminum extruded tracking from above thus allowing all gliders unfettered access across the entire bottom rail of the track. Most items are stocked and available for quick shipping.

COMPONENT SPOTLIGHT

The photo at right shows the Contempo track support (part #289912) that's part of this collection. The track support (1) sleeve slides over and tightens via a set screw to the stem of the Contempo bracket (2) from our European Elegance collection (pg. 18-21) changing it from a single bracket system to a double bracket system where the rail closest to the wall becomes a track that accepts glider hooks or roller glides. The closed portion of the bracket (3) will accommodate regular tubing. Hidden set screws hold everything in the proper place. Track supports (1) are available for all Contempo and Moderno brackets from our European Elegance collection.
